NOTE.—Wholesalers trading only in exempt goods do not supply returns. Considerable numbers of commodities were exempt from tax in July, 1931, September, 1932, October, 1933, August, 1934, October, 1935, and September, 1936. Consequently the proportion of wholesale trade covered by the records has been progressively reduced.

The amount of sales for individual months includes some sales effected in previous months.

* Tax collected mainly upon sales in the month shown, but actually received in the following month. The rate of tax was 2½% from 1st August, 1930, 6% from 11th July, 1931, 5% from 26th October, 1933, and 4% from 11th September, 1936.

NOTE.—This index represents the ratio of monthly clearings to the average for the months concerned during the five years 1926-1930. Seasonal fluctuations are, therefore, virtually eliminated. The trend has been smoothed out by taking a three months moving average. The index is adjusted to eliminate the effects of Treasury Bills and other special transactions on behalf of Governments, and the effects of bank amalgamations. No allowance has been made for normal growth or change of price levels.

‡ Index not ascertainable on account of suspension of State Government banking transactions.

* Census of 30th June.

The indexes have been adjusted to allow for an estimated increase in the number of persons dependent on employment, but no adjustment is made for seasonal variation. At the Census, 15,142 persons dependent on employment returned themselves as unemployed by reason of illness, accident, etc., or "voluntarily." This number, representing 1·8 per cent. of all persons dependent on employment, is excluded from the above indexes, which relate to percentages of available wage earners employed and unemployed.

The approximate number of persons in private employment was 478,000 in June, 1933, 519,000 in June, 1934, 567,000 in June, 1935, 614,000 in June, 1936, and 653,000 in June, 1937.

* From July, 1937.

† From October, 1937 (subject to variation for cost of living from 1st December).

The rates in the other capital cities from 1st September, 1937, and 1st October, 1937, were respectively:—Melbourne 73s., 76s.; Brisbane, 70s., 73s.; Adelaide, 71s., 73s.; Perth, 73s., 75s.; Hobart, 73s., 75s.

NOTE.—The foregoing rates up to February, 1934, represent the Harvester Wage (42s. in 1907) adjusted by retail price index numbers, plus the "Powers' 3s." From February, 1931, to February, 1934, the adjusted rate was reduced by 10 per cent. This reduction has been applied in calculating the rates shown above.

As from May, 1934, a new basic rate was determined, the "Power's 3s." abolished, and the 10 per cent. reduction restored to marginal rates. The basic rate is subject to periodical adjustment from June, 1934.

In July, 1937, a fixed loading of 6s. was added to the basic rate in two instalments, viz., 3s. from 1st July, 1937, and 3s. from 1st October, 1937.

§ Figures for 1931 and 1935 exclude articles posted or messages telegraphed in other states of Australia and received in New South Wales. On this account the figures cannot be compared with those for earlier years.

Note.—The exports in 1921, 1931 and 1936 include articles produced in other States of Australia. Since 1st January, 1912, the Commonwealth Customs Department has classified all goods produced in the Commonwealth simply as "Australian," without distinguishing, as formerly, the particular State where they were produced.
